Apoorva Sahu

Full Stack Developer (MERN Stack)

Renukoot, India | apoorvasahu0707@gmail.com | +91 8423247777 | LinkedIn | Portfolio | GitHub

SUMMARY

Final-year Computer Science student with hands-on experience building responsive, user-friendly web applications using React.js and the MERN stack. Skilled in component-based architecture, state management, Tailwind CSS, and RESTful API integration, with a strong focus on usability, clean code, and performance. Comfortable working across the stack with Node.js, Express.js, and MongoDB to develop and integrate scalable frontend and backend solutions.

EDUCATION

Bachelor of Technology in Computer Science and Engineering
Indus Institute of Technology and Management | Sep 2022 - Present | CGPA: 7.8/10

WORK EXPERIENCE

Full Stack Developer Intern — Vats Mobility
Remote | Jul 2026 - Present
- Developing end-to-end features for Vats Mobility's products, including Vats Insight and Vats Connect, using the MERN stack.
- Collaborating directly with the founder and engineering team to design and ship software solutions for real-world mobility use cases.
- Contributing across the software development lifecycle, including planning, development, testing, debugging, and deployment.
- Working in an early-stage agile environment with a focus on scalable, production-oriented solutions.

IT Intern — Aditya Birla Grasim Industries Limited
Renukoot | Jun 2025 - Jul 2025
- Gained hands-on exposure to industrial IT systems, enterprise workflows, and production-level software environments.
- Collaborated with cross-functional teams to understand enterprise IT operations within a large-scale manufacturing setup.

IT Intern — Birla Carbon India Pvt. Limited
Renukoot | Oct 2025
- Assisted in analyzing corporate IT infrastructure and industrial data management processes.
- Supported documentation and reporting workflows for IT systems used across plant operations.

SKILLS

Languages & Frameworks: JavaScript, Python, HTML5, CSS3, React.js, Node.js, Express.js, Tailwind CSS
Database: MongoDB
Concepts: RESTful API Development, JWT Authentication, Responsive Web Design, Data Structures, Problem Solving
Tools: Git, GitHub, VS Code
Soft Skills: Analytical Thinking, Team Collaboration, Communication

PROJECTS

Sports Club Management Platform
- Built a full-stack platform for athlete and coach registration, competition management, payments, documents, and administrative operations.
- Implemented OTP verification, role-based authentication, protected routes, and an admin dashboard for managing users, events, payments, and documents.
- Integrated Razorpay for payment collection and Gmail SMTP for automated email notifications and reminders.

Food Delivery Application (MERN Stack)
- Built a full-stack food delivery application with RESTful APIs for menu and order management, JWT-based authentication, UPI payments, and a responsive UI.

Car Rental System
- Developed a full-stack MERN application with frontend, backend, and MongoDB integration for vehicle booking and management.

Weather Forecast Web App
- Integrated third-party weather APIs to fetch and display real-time weather updates through a responsive interface.

CERTIFICATIONS

- HTML, CSS & Bootstrap
- JavaScript
- Node.js, Express.js & MongoDB
- Full Stack Web Development Internship Program
- Python with AI
